News Release

For Immediate Release: October 16, 2017

Water shutdown scheduled for Kalepa Village Apartment residents on October 18

HANAMAULU – The County of Kauai has scheduled an 8-hour water shutdown for customers located in the Kalepa Village Apartments on Kalepa Circle and Kale Place in Hanamaulu on Wednesday, October 18, 2017 from 8 a.m. to 4 p.m., weather permitting.

The scheduled water shutdown is necessary to allow County of Kauai crews to repair and install a back flow preventer that was damaged in a recent vehicular crash. Motorists and pedestrians are asked to proceed near the work area with caution and adhere to all safety and traffic signs in place.

During the scheduled water outage, the Department of Water (DOW) advises Kalepa Village residents to take the following steps:

- Store enough water to meet your needs during the shutdown.
- Those with faulty water heaters should ensure that water heaters do not empty during the shutdown.
- Notify family, friends and neighbors that may be affected by the shutdown.
- After the water main is turned back on, air and or existing sediment may be mixed into the water causing it to appear white or discolored. This is normal, and if it occurs, customers may flush water out through an outside hose bib until the water is clear.
- To monitor updates about DOW service shutdowns online, visit www.facebook.com/KauaiDOW.

The DOW is providing a trailer-mounted water tank to residents for essential water needs during the shutdown. The trailer-mounted water tank will be located in the parking lot near the Kalepa Village Apartments' management office. Customers will need to bring their own containers.

Affected customers are being notified by property management.

For more information, please call the Department of Water at 245-5461, Mon-Fri from 7:45 a.m. to 4:30 p.m. To report service issues after-hours, please call Police Dispatch at 241-1711.
